

# ITEYON

**Company Name: ITEYON**

**Company Number: PV 00278239**

## **Overview:**

ITEYON is a forward-thinking software and web development company based in Sri Lanka. With a strong focus on Java programming, ITEYON has been a hub for innovative software solutions and web development projects. We are driven by a passion for coding and a commitment to delivering high-quality, customized solutions to our clients.

# Services:

**Software Development:** Our team of dedicated developers specializes in creating cutting-edge Android applications and other software solutions. We are proficient in Java, making it our primary programming language of choice.

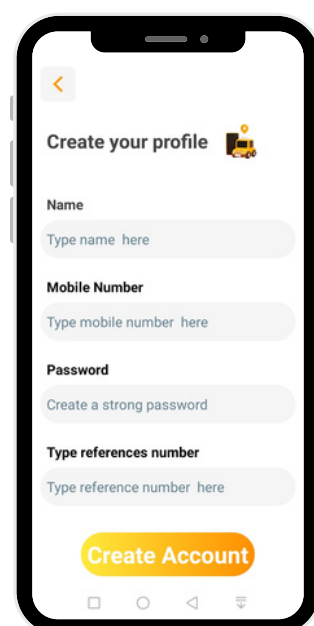

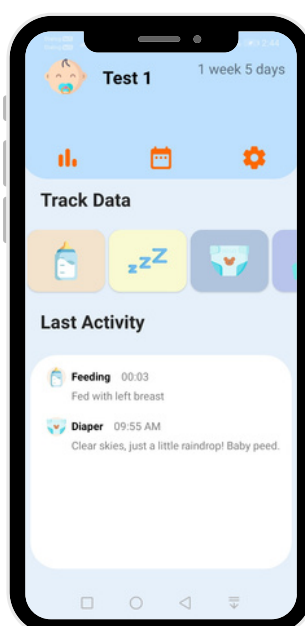

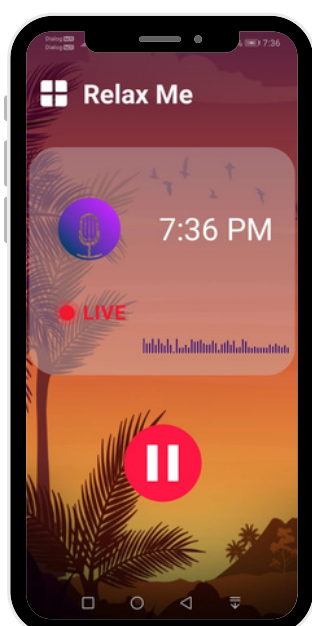

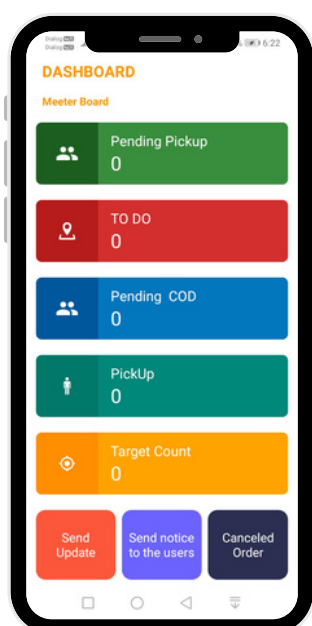

**Web Development:** ITEYON has a proven track record in designing and developing responsive and user-friendly websites. Our expertise spans from front-end to back-end development, ensuring seamless online experiences.

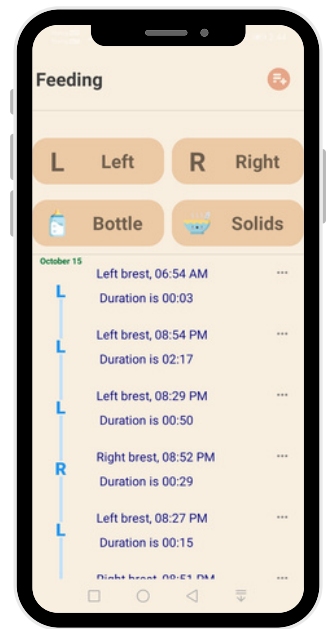

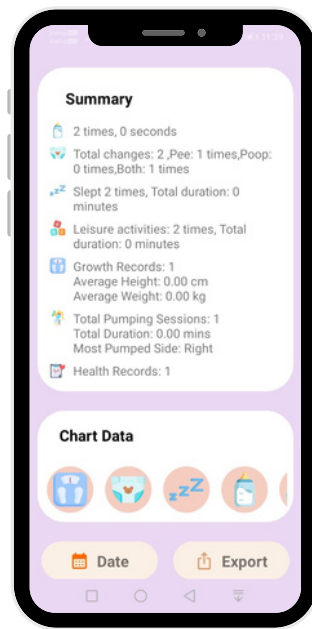

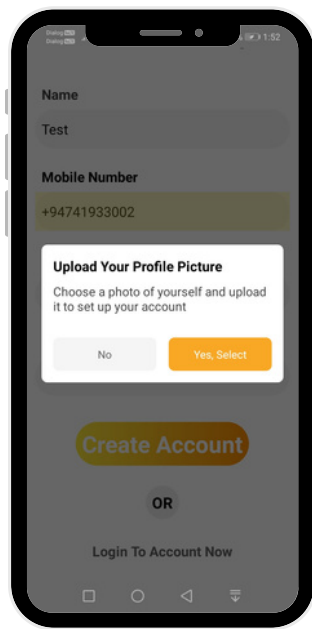

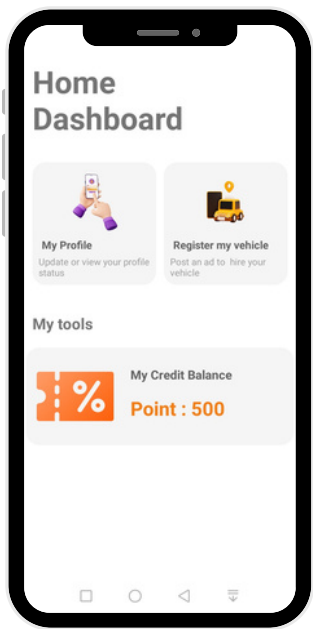

**Business Solutions:** We offer tailored software solutions that can streamline and optimize various aspects of business operations, from customer management to data analytics.

# Projects:

- We have successfully developed and launched several Android apps, each with a unique set of features and functionalities.
- Our web development team has created engaging and functional websites for various clients across different industries.

## Our Project In 2023
